PROFESSIONAL SUMMARY

Digital Project Manager with over 5 years of experience in digital transformation, automation, and systems integration across LATAM. I lead multicultural teams, use Agile methodologies (Scrum/Kanban), and apply AI tools to optimize processes. I’m the founder of a profitable tech consultancy and currently lead regional digital initiatives in education and marketing. I’m trilingual (Portuguese, Spanish, English), proactive, results-oriented, and open to international remote opportunities.

PROFESSIONAL EXPERIENCE

LATAM Digital Solutions Lead
IGA Instituto Gastronómico das Americas – Enero 2024 – Actualidad

Managed marketing campaigns and institutional design, increasing engagement by 20% and strengthening the brand’s digital identity. Coordinated audiovisual production and content strategy for LATAM, in collaboration with various departments. Currently leading academic-technical transformation projects focused on automation, scalability, systems integration, course redesign, and process centralization. Projected ROI: USD 10,000+/year.

Founder & Project Manager
LAIA Tech– Noviembre 2016 – Actualidad

Developed and currently operate an on-demand tech service model with remote support and delivery within 4 hours. Perform formatting, maintenance, and technical support for multiple devices weekly. Integrate generative AI to optimize processes, diagnostics, and customer communication. Fully profitable and recurring business model with a high client retention rate.

Project & Operations Coordinator
Clasico Pichincha – Octubre – Diciembre 2022

Coordinated hospitality operations and events focused on logistics, service, and client retention. Reduced operational errors by 40% and increased loyalty by 15%, with an estimated ROI between USD 5,000 and 10,000.
